PEARCY BROS.
NURSERY

SALEM - - - OREGON

About Our Rose Bushes

We grow our rose bushes except the patented varieties in our own nurseries at Salem.

Our WILLAMETTE VALLEY roses are ACCLIMATED to Northwest conditions. Don't risk roses grown in other sections where climatic conditions are different. Often they will not prove hardy. Our's are acclimated yet they cost no more.

GRADES OF ROSES. We grade our roses according to the Oregon Grade Law.

NO. 1 GRADE consists of clean, healthy plants that have three or more strong canes of 16 inches and up in length, except for baby roses which have four or more canes 10 inches and up.

MEDIUM GRADE consists of plants with two or more strong canes 14 inches and up, except baby roses which have three or more strong canes 10 inches and up.

NO. 2 GRADE consist of plants with two or more strong canes 10 inches and up in length, except for baby roses which have two or more canes 8 inches and up. (This No. 2 grade and the cull grade is the type usually offered at chain and department stores at bargain prices. They will usually grow but seldom give the satisfaction that the stronger plants give.)

WHEN TO PLANT. Roses can be planted any time that the plants are dormant. The season here is usually from mid-November until late in February. Roses planted before Christmas do better than the later planting if planted as we suggest below.

HOW TO PLANT. Plant deep enough so that the bud (this is the crook appearing about 2 inches above the roots) will be about 2 inches below the level of the ground. Then heap the dirt up around the plant until it is about 6 inches above the ground line. This protection prevents freezing in severe winters. Hoe this ridge down to the level of the surrounding ground after freeze danger is over. If all roses are protected in this manner you will seldom lose a rose from winter injury. It may freeze back to the ground level but will grow from there.

TERMS. We prepay carrying charges on all orders of \$2.00 or over to points in Oregon and Washington. If the order is for less than \$2.00 add 25 cents to order and we will prepay. Send 20% deposit with order (minimum deposit 50 cents). Any balance due we collect C.O.D. To cover extra C.O.D. costs we add 15 cents to the C.O.D. Send pay in full before shipping date and save this charge.

ROSES

What plant is there that gives you more beautiful flowers than does the rose? You get a grand display in spring. Then during the summer there is an intermittent display and again in the cooler fall weather another fine display of flowers. Some of the new Spanish varieties seem to prefer the heat of summer for flowering. Other varieties do better in spring and fall. If you have a collection of a dozen or more varieties there will be hardly a day over a period of nearly eight months that you will not have blooms. What other plant will perform this well?

PRICE LIST OF 2-YEAR BUDDED ROSE BUSHES

40c each for No. 1 grade bushes unless marked otherwise.

60c each for varieties marked with one *

75c each for bushes marked with **

Medium grade bushes 10c less than No. 1 grade.

No. 2 grade bushes 20c less than No. 1 grade.

DISCOUNTS—

For orders of 10 to 24 bushes discount 10%.

For 25 to 49, discount 15%.

For 50 or more discount 20%.

NOTE—

For specifications of the various grades see first page.

REMEMBER—

We prepay shipping charges on rose bush orders of \$2.00 or over to points in Western Oregon and Washington. For orders less than \$2.00 add 25 cents and we will prepay shipping charges.

GENERAL LIST OF CHOICE ROSES

ANGELE PERNET. Orange-yellow shaded deep reddish-apricot. Fragrant. A real good rose. Stiff stems.

AUSTRIAN COPPER. Single, copper-red on inside petals and golden yellow on outside. Showy. Hardy. Don't prune. Plant this among shrubs and treat as such. Too large for the rose beds.

AUTUMN. Very popular. An unusual combination of burnt-orange and pink, streaked with red. Moderately fragrant. Lasting. Thick, glossy foliage.

BETTY UPRICHARD. Buds copper-red; flower semi-double brilliant copper-pink on back of petals and flesh-pink inside. Prune lightly.

****CATALONIA.** One of the new Spanish beauties. Vermillion, a new color in roses. A vivid coloring different from that of any other rose. Fragrant.

CHATEAU DE CLOS VOGENT. Extremely dark reddish black, fragrant, double. A lovely velvety flower.

CHAS. P. KILHAM. A perfectly formed long pointed bud of rich Oriental red suffused with red and orange. Flower double and high centered. Resembles Mme. Edu Herriott. A very fine rose.

CHAS. K. DOUGLAS. Vivid red flowers. Very productive. A fine red bedding rose.

****CONDESA DE SASTAGO.** New. A husky Spanish beauty. Brilliant bi-colored flowers. Deep reddish-copper on inside petals and deep yellow outside. Has been likened to a double Austrian Copper. Does as well in hot weather as in cool. We believe that this rose will soon rank in popularity with Talisman and Hoover.

CONSTANCE. Yellow buds streaked with red. Beautiful glossy foliage.

PEARCY BROS. NURSERY

- CRESTED MOSS. A lovely old favorite. Double, pink flowers.
- CUBA. A vigorous-growing upright bush producing a profusion of brilliant orange-scarlet semi-double flower. A fine garden rose.
- DAME EDITH HELEN. Large, perfectly formed, very double, shell pink. A beautiful cut flower.
- EDITH NELLIE PERKINS. Two toned. Orange-buff inside petals and coppery pink outside. Long stems. A fine rose.
- E. G. HILL. A large dazzling scarlet. Does not fade. Double. Fragrant. A fine cut flower. One of the very best reds.
- ETOILE DE HOLLAND. Probably the best red. Dark velvety red. Large flowers. Fragrant. Does not fade blue. If you can have but one red take this one.
- FELICITY. Very double, rose pink flowers. Prune hard.
- FEU JOS. LOOYMANS. Long well shaped buds. Bronzy yellow flowers. A real fine rose.
- FRAU KARL DRUSKI. Pure white double flowers. Makes a large bush.
- **FREDERICO CASES. A brilliant colored Spanish rose. A highly colored blend of copper and orange. Fragrant.
- GAIETY. Medium size flower that produces well. A combination of orange, Indian red and silver. Very satisfactory.
- GEN. MacARTHUR. Glowing crimson-scarlet. Fragrant.
- GOLDEN DAWN. An Australian rose that has become very popular over here. Sweetly scented, very double, rich sunflower-yellow passing to lemon yellow with age.

GOLDEN EMBLEM. Considered by many to be the best yellow. Golden yellow. Large well-formed buds.

GRUSS EN TEPLITZ. Bright velvety crimson. Fragrant. Blooms continuously. Very hardy. Prune lightly.

HOLLYWOOD. Large, double clear pink.

HOOSIER BEAUTY. Glowing crimson. Large, full, sweet-scented.

IMPERIAL POTENTATE. Brilliant, large, well-shaped pink. Fragrant. One of best pinks.

INDEPENDENCE DAY. Buds red-orange, flowers bronzy yellow, semi-double.

JULES GAUGARD. Orange-rose. Fragrant. Large flowers.

JULIEN POTIN. Large, well shaped, pure yellow. A real good yellow.

JOANNA HILL. Well shaped, sulphur yellow flowers. Vigorous. A fine cut flower. Fragrant. Very popular.

K. of K. Intensely brilliant scarlet. Fragrant. Semi-double. Does not fade.

LADY FORTEVIOT. Golden yellow, changing to deep apricot. Fragrant. Vigorous. Bronzy green foliage.

LADY HILLINGDON. Apricot-yellow shading to orange. Beautiful pointed buds.

LADY MARGARET STEWART. Large beautifully formed buds of red-orange and coppery yellow. Fragrant.

***LI BURES.** An unusual rose from Spain. Bud is maroon red. As flower opens bright shades of pink, orange and yellow appear. A new color almost every day.

LORD CHARLAMOTT. Large, beautifully formed high centered crimson flowers on stout stems. One of the real fine reds.

LOS ANGELES. Rich flame pink. Well shaped. Fragrant.

MARGARET McGREEDY. Double blazing brick-red flowers. A heavy bloomer. A different rose.

MARION CRAN. Buds light yellow, edged cerise. Flowers double, bright light crimson, veined orange and yellow. Free flowering.

**MAYOR BAKER. A spectacular new rose. Resembles Cuba in form but greatly intensified in color.

MME. BUTTERFLY. Flesh pink. Beautifully formed buds.

MME. EDU HERRIOTT. Coral pink shaded yellow and scarlet. One of the showiest garden roses. Very popular.

MME. CAROLINE TESTOUT. "The Portland Rose." Clear pink. Extremely hardy.

MME. JULES BOUCHE. One of best white roses.

MME. VAN D EVOORDE. A givorous bush that is nearly always in bloom. Vivid scarlet. Its long pointed buds make it an ideal boutonniere rose. New.

MRS. AARON WARD. Double. Buff yellow.

MRS. E. P. THOM. Well shaped double pure yellow that does not fade. Considered the best yellow by many experts.

MRS. G. A. VAN ROSSEN. Extremely showy. Should be in every garden. Double. Fragrant. An intense orange overlaid on a dark golden yellow ground, with rich bronze veins.

MRS. P. S. DUPONT. Won Bagatelle prize in France for best yellow rose. Fine color and form. Pointed bud. Prolific bloomer.

OLYMPIAD. Long pointed buds. Perfectly formed. Color ranges from blood-red to orange cerise.

PADRE. A very showy bedding rose but a poor cutting rose. Should be in every garden. Brilliant coppery scarlet flushed with yellow at base of petal.

PRES. HERBERT HOOVER. One of the most popular roses in existence. Long pointed buds of orange scarlet opening into a large flower of orange and pink. Makes a large bush and bears prolifically. A fine cut flower. Don't be without this rose.

PRES JAC SMITS. A very fine semi-double flower of brilliant dark red. Fragrant and prolific.

RAPTURE. A large pointed bud of pink shaded apricot. An improved Mme. Butterfly.

RED RADIANCE. Light, reddish crimson.

REV. PAGE ROBERTS. Beautifully formed, tawny yellow, splashed copper in bud. A beautiful rose.

ROSELLA SWEET. Large semi-double flower, rich orange apricot.

ROSLYN. Golden yellow, with deeper shading in center.

SHOT SILK. Combination of orange-rose overlaid with yellow and suffused with pink. Glossy foliage. Fragrant.

TALISMAN. The most popular rose in years. When weather conditions happen right it is a most spectacular sight. A mixture of red, yellow and copper in varying proportions. Long pointed bud.

ULRICH BRUNNER. Large, bright cherry-red. Fragrant. Hardy.

THE QUEEN ALEXANDRIA. A combination of vermillion and orange with reverse petals of old gold.

VANGUARD. Orange-salmon and copper. Very vigorous. Almost a pillar rose. Will make 8 to 10-foot canes. Beautiful foliage. Fragrant. Very hardy.

**SPECIAL BARGAIN
OUR SELECT DOZEN**

| | |
|-----------------------|--------------------|
| Etoile de Holland | Angele Pernet |
| Lord Charlamott | Imperial Potentate |
| Pres. Hoover | Mme. Edu Herriott |
| Talisman | Golden Emblem |
| Mrs. G. A. Van Rossem | Feu Jos Looyman |
| Mme. Jules Bouche | Dainty Bess |

These fine varieties should be found in every garden. Each is outstanding in its class. Plant these and learn of the beauty that is obtainable from fine varieties of roses.

Regular price on the dozen bushes in No. 1 grade is \$4.30 prepaid. Send \$4.30 for this dozen and we will add FREE your selection of any one 40c rose from this list. The same selection in Medium Grade costs \$3.25 prepaid and of the No. 2 grade \$2.15 for the dozen plus the extra bush free.

SINGLE ROSES

We find that the novice seldom orders single roses but after he becomes a fancier his delight in these dainty roses increases rapidly. Some of the most beautiful bedding roses are single varieties. To get the most effect from singles plant in beds by themselves. Three or four bushes of a kind in a bed make a beautiful display.

CECIL. The best single yellow. Large. Clear but-tercup yellow. Strong spreading bush with glossy foliage.

DAINTY BESS. Medium size flower with crinkly petals of soft rose pink. Perhaps the best single rose.

IRISH FIREFLAME. Orange shaded red. Long pointed buds.

ISOBEL. Carmine red shaded yellow. Long pointed buds. Strong bush.

KIRSTEN POULSEN. Large clusters of medium sized crimson flowers.

POLYANTHA ROSES

These are the low growing baby roses that bear their flowers in clusters. They are in almost continuous bloom all summer. Better planted as shrubs in the floral border in front of larger shrubs or as edgings to drives and walks. We know of no shrubs that bloom as continuously. They are almost always a mass of color.

CECILE BRUNNER. This is the tiny "sweetheart rose." Tiny, perfectly formed light pink flowers

ELSE POULSEN. Different from the other polyanthas. Blooms continuously.

ELSE POULSEN. Different from the other polyanthas listed herein. Bush taller and the flower larger and single, in clusters. Rose pink.

GLORIA MUNDI. Great masses of little double flowers of brilliant luminous scarlet.

GOLDEN SALMON. Same color as Gloria Mundi but with single flowers in masses.

IDEAL. Small double blackish scarlet flowers in masses. Compact.

CLIMBING ROSES

The climbing roses are the most spectacular of all shrubs. The quantity of bloom produced by a thrifty climbing rose is enormous. Climbing roses may be used to decorate the doorway or to sprawl over a bank. Trained on a high fence or trellis they provide a most attractive

screen. In our favored climatic conditions west of the Cascades the climbing roses are almost evergreen. A yard surrounded with a screen of climbers affords privacy and at the same time a display of wonderful beauty.

AMERICAN PILLAR. Extremely vigorous in growth. Great trusses single flowers nearly 2 inches across. Color rose-red paling in center to white with yellow stamens.

***BLACK BOY.** Vigorous. Semi-double flowers of dark glowing red, overlaid with a sheen of velvety black. One of the newer varieties.

CLIMBING AMERICAN BEAUTY. An old time favorite. Crimson.

***CLIMBING CECILE BRUNNER.** Vigorous climbing baby rose with flowers of pale pink and yellow, as with the bush rose of same name.

***CLIMBING CHATEAU DE CLOS VOUGENT.** Extremely dark, blackish red. Dark. Fragrant.

***CLIMBING GOLDEN EMBLEM.** A vigorous growing climber with same flower and foliage as the bush Golden Emblem.

***CLIMBING HADLEY.** Fine dark red flower. Fragrant.

***CLIMBING LOS ANGELES.** Moderately vigorous climber with a coral-pink flowers.

***CLIMBING MME. EDW. HERRIOTT.** Same as the bush variety except in habit of growing. Gorgeous coral and orange flowers.

****CLIMBING TALISMAN.** Vigorous. Producer flowers of same coloring as the bush Talisman but the flowers are larger and better. We expect this new climber to make a great name for itself.

†***COUNTESS OF STRADBROOKE.** One of most richly colored and most perfectly shaped flowers. Dark crimson.

DR. VAN FLEET. Vigorous. Flowers well formed and flesh pink.

EMILY GRAY. Lovely semi-double golden buff flowers. Beautiful glossy foliage.

HIAWATHA. A rambler with masses of single, glowing crimson flowers. Vigorous grower.

JACOTTE. Bright orange colored blooms. A rather slow grower.

****KITTY KININMONTH.** A fine new Australian climber. Large, ruffled semi-double blooms of fadeless pink. A strong grower.

LE REVE. A fine clear, unfading yellow climber. Beautiful foliage. Grows to 12 or 15 feet.

****MERMAID.** A continuous blooming climber with immense sulphur yellow single flowers. New and beautiful.

MME. GREGOIRE STAECHLIN (Spanish Beauty). Long crimson buds that open to delicate pink flowers with curled petals.

MRS. GEORGE THOMAS. Almost single flowers of yellowish-salmon pink.

***PAULS LEMON PILLAR.** Pale yellow buds opening to flowers nearly white. Beautifully formed buds and flowers. The best white climber, for the flowers are really white when full.

PAUL'S SCARLET CLIMBER. The best selling of all climbers. Great clusters of fairly large bright scarlet flowers. A knockout when in full bloom.

****REVEIL DIJONNIAS.** This is one of the most unusual and at the same time most attractive of the new climbing roses. Gold medal at Portland Test Gardens. Bicolor flowers of golden yellow suffused with pink. Semi-double. Difficult to describe the unusual coloring. Recurrent bloomer.

***SCORCHER.** Large, ruffled, semi-double flowers of blazing rosy scarlet. A new Australian novelty.

SILVER MOON. Enormously vigorous grower. For a quick cover this rose is a dandy. Large, almost single clear white flowers in great masses.

****SOUVENIR DE CLAUDIUS DENOYEL.** We believe this to be one of the very finest red climbers for our climatic conditions. Prefer it by far to the highly advertised "Blaze." Large velvety crimson flowers. Recurrent bloomer. If you want a real crimson climber that is fragrant and which blooms recurrently through the summer this variety should please.

PATENTED ROSES

These are the patented roses that are being so heavily advertised through the garden magazines of the country. We buy these bushes from the patentee in California. All other rose bushes described herein we grow ourselves at Salem. We are not permitted to propagate the patented varieties so must buy them. Prices on the patented varieties are the same all over the United States. These cannot be included in dozen lots. Price is as printed without discount of any kind.

AMELIA EARHART. Bud cream with blushes. Fls full. Deep yellow center shading to outer collerette of cream with blush overtone. Fragrant. \$1.50 each.

BETTER TIMES. Large double flowers of brilliant cerise. Fragrant. Cut flowers keep exceptionally well. Long stems. We consider this to be perhaps the best of the patented varieties that we are listing. \$1.50.

BLAZE. Most highly advertised rose on market. Claimed to be an everblooming Paul's Scarlet Climber. (We are not recommending this variety but have it for those who wish it.) \$1.25

COUNTESS VANDAL. Long pointed bud on upright stem. Resembles Edith Nellis Perkins, but richer coloring and larger buds. Color a shade of pink with a blend of copper, gold and salmon. \$1.00.

GOLDEN CLIMBER. Vigorous grower with good foliage. Clear yellow. \$1.50.

GOV. ALFRED SMITH. Large salmon and gold. \$1.25.

NIGRETTE. The new black rose. Intensely deep maroon with blackish velvet sheen. Fragrant. Flower rather small. More desired for its unusual coloring than for its beauty. \$2.00.

PRINCESS VON ORANGE. A climbing sport of Glori Mundi. Immense masses of orange-scarlet flowers. Vigorous. \$1.25.

TOKEN. Full double flowers of glowing orange. An unusual color. Well shaped buds. \$1.50.
